

P 6 3 0

Mobilising payments

Portable POS for fast, flexible checkout anywhere your merchants work. Perfect for Fitness, Hospitality, Healthcare and Dental. Built for ISVs, with white-labelling and embedded integration for full customisation, from managing orders in your software to deploying a branded app on the terminal. Delivering a seamless merchant experience while elevating your brand.

Key Function

Our Android terminal suite delivers a flexible, cloud-ready payment experience that supports diverse merchant workflows. Partners benefit from a consistent set of features across all devices:

Cloud integration

Real-time reporting

Merchant level tokenisation

Merchant support via Worldpay dedicated support team

White labelling capabilities

Terminal options to suit their needs

Next day swap outs
